Present for the party were Mrs. Rodgers, left, and two of the couple's six grandchildren, Evan Riggs, 8, and Renee Riggs, 5, of Brownwood, and right, Mrs. Gladys Henderson, Woodson's daughter. The Rodgers have three children. Woodson is the father of six children and 19 grandchildren. All of the men at the Lodge were presented red carnations.

NEWS AND VIEWS . . . And What Have You By BOB CRAIG

Graduation is over at public schools and colleges all around the area and as usual good advice was handed out at commencement and baccalaureate services.

But of all the speeches, of all the things written to the graduates of 1975, we liked what Tom Anderson, who writes for American Way Features, had to say best of

His advice goes equally to all of us as well as to graduates. He wrote:

"If you asked most people what they most wanted out of life, they would doubtless answer: "happiness." What is

Happiness is not what you have in your pocket but what you have in your heart. Money won't buy happiness. And in spite of what the wags say, it won't buy a more endurable brand of misery. Those who chase happiness rarely catch up to it. Multimillionaire Jay Gould said before he died: "I suppose I am the most miserable man on earth." Happiness lies not in pleasure. Lord Byron, after a life of pleasure, moaned: "the worm, the canker and grief are mine alone." Power won't produce happiness. Alexander the Great conquered the known world and then wept and said: "There are no more worlds to conquer." Happiness lies not in believing "God is dead." Voltaire believed that, and wrote: "I wish I had never been born."

Happiness is being born again. Happiness is in Christ. He said: "Your heart shall rejoice, and your joy no man taketh from you." As Proverbs 16:20 teaches: "Whose trusteth in the Lord, happy is he."

Happiness is being a sovereign individual. Learn to sing solo. Anybody can sing when

everybody is singing. The great and good things of history were performed by individuals, not the mass.

Happiness is inequality. You're unhappy because you have physical defects, you're not smart, don't express yourself well? Beethoven was

deaf. Edison was a poor student. Churchill lisped as a boy. When Queen Victoria exclaimed to the great pianist, Paderewski: "Ah, you are a genius!" He replied, "Perhaps Your Majesty - but before I was a genius, I was a

There are few born geniuses. Genius is composed mainly of sweat, determination and courage. If you want success, do sweat

"Be sure you're right, then go ahead; be sure you're wrong before you quit." Don't brood over failures; if you must cry over spilt milk, condense it. And don't blame your "bad luck." Luck is a circumstance as rare as an honest politician. Your "luck" is what you make it. Those who complain about the way the ball bounces

are invariably the ones who fumbled it. Happiness is security - and the only real security you'll ever have will come from inside you. You are not the same as the others. You are different. Different from any person alive, or who ever lived, or who ever will live. You are you. The only you. What are you going to do about you? That is up to you. Happiness is a round peg in a round hole.

Happiness is not to ride now, pay later, as the ads say. In the olden days men used to ride chargers, now they marry them. Happiness is riding a charger, not marrying

The tourney will be divided

Entry fee will be \$50 per team. Tee off will be anytime Saturday with the score counting for flight and total.

A long driving contest and a closest to pin contest will be held each of the two days.

Garage Sale Raises Over \$600 for Camp

The Garage Sale to benefit the campers in the area to attend Camp Roadrunner netted \$606.51, according to Mrs. C. L. Howard, local chairman.

This amount includes several donations, she said. The three-day sale was held at the Howard home, 515 West Lake Drive, and sales came to over \$400 on the first day, she said.

Mrs. Howard was assisted by neighbors and friends in staging the sale. Many items were donated by area

PAPER NEEDED ...

... for Day Care Center Pledge

The Hamlin Board of Community Development is in desperate need of more paper for their year-round paper drive. The revenue from the waste paper is used to fulfill a pledge of \$1,000 a year to the Day Care Center.

In the past yearly income from the paper drive has been from \$1500 to \$2,000 and

was used also to sponsor the summer recreation program for the youth. There will not be a recreation program for the youth this year, according to Mrs. L. C. Bonds, BCD secretary-manager.

In making the pledge of \$1,000 to the Day Care Center, only the plus income of the paper drive was set aside. The BCD is not using any money from the regular budget for this purpose.

Mrs. Bonds said the \$1,000 is imperative to the operation of the Center. Only \$400 has been received from the waste paper this year.

The waste paper may be deposited in the trailer parked in the wire enclosed area on the lot on Southeast Ave. A between Southeast

Third and Fourth Streets.

Those unable to take the paper to the designated spot may call Mrs. Bonds at the BCD office, 576-3501, for arrangements to be made for pick-up.

Volunteers who would like to assist in the pick-up are asked to call Mrs. Bonds,

Most of Area's Bumper Wheat Crop Is Harvested

Between 80 and 90 percent of the area's bumper wheat crop was harvested last week but it may be a week to 10 days before the balance of the crop can be cut, according to a spokesman at Moore Elevator

A shortage of combines is expected to delay the final stages of the harvest as most of the transient harvest crews have already pulled out of the

The biggest day of the area harvest set a new record for Moore Elevator as 141,000 bushels were unloaded at the elevator last Tuesday, June 3. This exceeded the previous high set the day before when 119,000 bushels were har-

A total of 880,000 bushels of wheat had been unloaded at the local elevator up to Monday morning of this week. The bulk of this was harvested in seven days with the harvest moving into full swing here Sunday, June 1. Because of the high humidity and threatening rain, only a small amount was harvested here Sunday and the same conditions slowed the harvest again Monday.

With some area elevators running as much as a two hour delay in unloading, the local elevator reported that 10 minutes was the longest wait for any of the 400 trucks that were unloaded during the record breaking day last Tuesday. The 141,000 bushels unloaded during that day was equivalent to 84 railroad cars

The wheat was bringing \$2.80 a bushel here Monday, down from the \$2.95 that the wheat was bringing at the start of the harvest.

Yields are reported to be

running between 20 and 22 bushels per acre. Most of the area wheat suffered from the late freeze, hail and rain with some estimates putting the loss as much as 10 bushels per acre over the area

Even with the loss in the yield, the increase in acreage is making this year's crop a bumper one with the local elevator looking for a million bushels before the harvest is

continually complain that people don't understand them probably don't understand

Nobody can cheat you as badly as you cheat yourself. More important than your good qualities are the use you make of them. Happiness is service above self.

When a young minister asked his Bishop, 'What shall I preach about?," the Bishop answered: "Preach about God and preach about 20 minutes.

Happiness is knowing how to spend your time. At your age it's hard for you to appreciate the tyranny of time - there's so little time for each of us. Seneca observed centuries ago: "We are always complaining that our days are few, and then acting as though there would be no end to them.'

Jesus had only 33 years on earth. Nathan Hale had 22. Joan of Arc had only 19. It's not how much time you have; it's what you

Happiness is doing nothing you have to hide. Happiness is a clear conscience. Sin is not old-fashioned; sin is real.

What is morality? It's what the Bible says it is. Not what some leftwing, overeducated professor or a "modernist" preacher may

A nice girl is still one who whispers sweet nothing-doings into her date's ear. Don't ever let anybody sell you the lie that chastity is out of date. Your children will want their mother to be as pure as you want your mother to be. Happiness is having a future.

All that is legal or "acceptable" is not moral. Only the moral deserve to be free. Freedom and morality are indivisible.

Happiness is knowing. Education is not merely school. Your education is the continuous development of mind, heart and

Character is like an iceberg; the part which counts for most is below the surface When you cash in your chips for this life, the only thing of any value which you can take with you is your character. Character is a victory, not a gift. Character knows no race, creed, color or circumstance. If you lack it, it's nobody's fault but your own. Happiness

Happiness is freedom. What is freedom? It is freedom to choose. It is the right of every person to own and control his own property, his own mind, and his own labor as long as he is not infringing on the same rights of others.

There is only one great giver and that is God, not government. Governments don't give freedom; they take freedom. People have to wrest freedom from governments. Then after the people secure freedom, they have to work constantly to keep it. You can't have freedom and security. Happiness lies not in the state but in the state of mind.

Government can give you nothing which it does not first take from somebody else. If you want your government to be your servant instead of your master, you must understand it, participate in it, distrust it and control it. The bigger it is the littler you are.

Happiness is being self-sufficient. Throughout our lives one of our greatest needs is to feel wanted and appreciated. No less pitiful than an unwanted child are the unwanted old people relegated to rest homes where they get everything their hearts desire except the one thing they most want: love. Love is the greatest thing there is. Love, honor and obey your God and your parents. "For God so loved the world, that he gave His only Begotten Son, that whosoever believeth in Him should not perish, but have everlasting life."

Happiness is love.

Dear editor:

it's justified or not.

A week or so ago in this space I was joking about New York City, how it had so much brains and talent and yet couldn't pay its bills and was facing bankruptcy if Washington didn't lend it a billion dollars immediately.

Washington declined, and I have now decided this is no laughing matter.

For example, what if New York does go under, the banks foreclose, and everybody has to move out, like the people of that Cambodian city I can't pronounce, Pnom Penh? (On the other hand, how many Cambodians can pronounce Philadelphia or Schenec-

No sir. If we're smart we'll start a financial drive right now to save the cities of America. Here we've spent years herding those people into cities and trying to make them feel happy there, and to let them break out and overrun us now would be disasterous. It'd take us years to get them all back in again. I'm warning you, we'd better start doing something about it.

New rates for long distance calls within Texas.

With Discount Periods and a new One-Minute Rate, you may be able to save money.

Rates for Long Distance calls within Texas have just changed.

For you - the telephone customer - it means most rates are going up.

But you may be surprised to learn that rate changes won't necessarily bring higher telephone bills.

Because with our new discount for dialing your own calls, you can better control your Long Distance costs. In some cases, you may be able to save

money on your Long Distance bill by taking advantage of these rates. For example, there's a new one-minute

rate on all calls that you dial yourself - without the operator's help. Under the old rate, the initial rate period was for three minutes. Now on One-Plus dialed

calls the initial rate period is one minute. That means you can save by reducing the length of your call.

Also, for the first time we are offering flat percentage discounts for Evening, Night and Weekend One-Plus calls.

Using the Day rate as the base, the Evening rates will be 25 per cent less. And, on Nights and Weekends there will be a 35 per

So, if you call later in the day or night, or on weekends, you're going to get the lowest rates possible.

But if you place calls through an operator, rates for these Zero-Plus calls will be higher, at any time - night or day. These include calls from a coin phone, collect, credit card and calls billed to a third number.

The initial rate period of three minutes will continue for these and other operator-assisted

And, person-to-person calls will cost more than any other type call.

Simply put, if you dial the call yourself, you are going to get a lower rate. If you place your call through an operator, it will cost more.

Now our new rates offer you a choice. By dialing your own calls and by taking advantage of our discount rate period, you can still get low rates and fast service.

To save on your Long Distance calls within Texas, follow

(1) Dial all your Long Distance calls the One-Plus way. Dial 1, plus the Area Code, if it's different from your own, plus the seven-digit number

(2) The new one-minute rate for One-Plus calls is in effect 24-hours a day. If you talk 60 seconds or less, you pay for only one minute - not three

(3) When possible, call Nights and Weekends the One-Plus way. You'll be getting a 35 per cent discount from the Day rate. (4) If you call Evenings, you will save 25 per cent from the Day rate on One-Plus calls.

Three-County Area Produces Over 17 Million Barrels of Oil

Over 17 million barrels of oil were produced last year in the three county area of Jones, Fisher and Stonewall Counties. Fisher County led the three in production with 9,691,654. Stonewall was next with 5,459,960 and Jones County produced 1,978,316 barrels of oil.

The total for the three counties was 17,129,930. The three counties combined produced 46,931 barrels of oil per day during 1974. Total production for the three counties through the end of the year reached 491,513,800 barrels. Jones County leads in total production with 175,079,643 barrels.

Jones County, which has had recorded production since 1926, last year produced 1,978,316 barrels of oil at the rate of 5,420 barrels per day.

Production in 1974 boosted Jones County's production total through the end of the year to 175,079,643.

Stonewall County, which has had recorded production since 1938, last year produced 5,459,960 barrels of oil at the rate of 14,959 barrels per day. Production in 1974 boosted Stonewall County's production total through the end of the year to 156,105,187

Fisher County, which has had recorded production since 1928, last year produced 9,691,654 barrels of oil at the rate of 26,552 barrels per day. Production in 1974 boosted Fisher County's production total through the end of the year to 160,328,970 barrels. In 1974, some 31 counties

produced more than 10-

million barrels of crude oil,

with Anderson and Kleberg counties dropping below that mark and off the list compiled last year. The top seven. all with production in excess of 51-million barrels, retain generally the same order as in 1973 with one notable exception: Yoakum County has moved into the No. 2 spot ahead of Ector County. The list includes:

Scurry - 94.2-million barrels (91.8, 1973); Yoakum - 77.6-million barrels (66.0); Ector-71.2million barrels (72.6): Gaines-57.8-million barrels (61.3); Andrews-56.2-million barrels (60.4): Gregg-51.6million barrels (53.2); Hockley-51.3-million barrels

LEGISLATURE CLOSES Texas has a new \$654 million public school finance act and authorization for a Public Utilities Commission to regulate telephone rates and services and to control other utilities (except gas) in rural areas.

Cities may elect to come under the Commission after two years with utilities other than telephones. Gas will be regulated by the state Railroad Commission.

Both the school finance and utilities acts were among the last major pieces of legislation approved by the 64th Legislature which ended its session at midnight June 2.

A record \$12.1 billion appropriations bill passed by lawmakers on final night of the session has been certified by Comptroller Bob Bullock as within anticipated income. Briscoe has until June 22 to decide which of the legislature's acts he will sign and which he will veto.

DANGEROUS BUILDINGS ORDINANCE

CITY OF HAMLIN An ordinance defining dangerous buildings within the terms of this ordinance, establishing a Building Standards Commission, providing for the condemnation of dangerous buildings or structures, and providing for the evaluation. repair, and-or demolition of dangerous buildings; providing for the assessment of costs of abatement; providing for the fixing of a lien for the costs of abatement; containing a savings clause; providing for the method of publication of this ordinance; and providing a penalty.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF HAMLIN. TEXAS: SECTION I. All buildings or structures which have any or all of the following defects shall be deemed dangerous buildings:

A. Any building, shed, fence or other man-made structure which is dangerous to the public health because of its condition, and which may cause or add in the spread of disease, or injury to the health of the occupants of it or neighboring structures.

B. Any building, shed, fence or other man-made structure which because of faulty construction, age, lack of proper repair, or any other cause, is especially liable to fire and constitutes or creates

a fire hazard. C. Any building, shed, fence, or other man-made structure, which by reason of faulty construction or any other cause, is liable to cause injury or damage by

collasping or by a collapse or fall of any part of such

D. Any building, shed fence or other man-made structure, which because of its condition or because of lack of doors or windows is available to and frequented by malefactors or disorderly persons who are not lawful occupants of such structure.

E. Any building, shed, or other man-made structure so constructed or permitted to be so constructed as to constitute a menance to health or safety including all conditions conductive to the harboring of rats or mice or other disease carrying animals or insects reasonably calculated to spread disease, and including such conditions hazardous to safety as inadequate bracing or use of deteriorated materials. E. Any building, shed, or

other man-made structure so constructed or permitted to be so constructed as to constitute a menance to health or safety including all conditions conductive to the harboring of rats or mice or other disease carrying animals insects or reasonably calculated to spread disease, and including such conditions hazardous to safety as inadequate bracing or use of deteriorated materials

F. Any building, shed or other man-made structure that has become deteriorated through natural causes or by damage through exposure to the elements, especially wind, hail, or rain, or damage through fire, to the extent that the roof, windows and doors, or portions of the house, building, or structure which protect from the weather, will no longer reasonably protect from the

SECTION II. All dangerous buildings within the terms of this ordinance which shall constitute a menance to the health, morals, safety, or general welfare of its occupants or of the public are declared to be public nuisances and shall be ordered to be vacated, repaired or demolished as herein

SECTION III. It shall be unlawful to maintain or permit the existence of any dangerous building in the city; and it shall be unlawful for the owner, occupant or person in custody of any dangerous building to permit the same to remain in dangerous condition, or to occupy such building or permit it to be occupied while is or remains dangerous condition.

SECTION IV. There is hereby created a Building Standards Commission to be composed of three members. each of whom shall be a resident of the city of Hamlin. They shall hold office for a period of two years, or until their successors are appointed. As near as practical, they should be qualified in one or more of the fields of fire prevention, building construction, health and public safety. In addition to said three members, the fire marshal, building inspector. and health officer of the city of Hamlin shall be ex officio non-voting members of said Building Standards Commission. Any city employee in the said respective department or division of the city, who shall be designated by the city's secretary, shall be authorized to act as substitute for the respective superior of their respective department or division as ex officio member of said commission. It shall be the duty of the ex officio members of such commission to inspect all buildings or structures reported to be or believed to be dangerous and to present a report of such inspection to the Building Standards Commission, which commission shall notify the proper party of the intention of such commission to hold its hearing and to

follow the procedure hereinafter provided. SECTION V. The following steps shall be taken in the condemnation of a dangerous

1. When it shall come to the notice of the Building Standards Commission that a building or structure in the city of Hamlin is dangerous under the terms of this ordinance, the said commission shall cite said owner of such building or structure,

building:

or his authorized agent or representative, to appear, and show cause why such building should not be declared to be a dangerous building and why he should not be ordered to vacate, repair, or destroy such building or structure. The date of such hearing shall be not less than ten (10) days after such citation shall have been made. 2. Such citation may be served by delivery of a copy

thereof to the owner of the person in possession, or, if such premises be unoccupied, by attaching a copy of such citation in a place of prominence on such building or structure. 3. On the day set in such citation for hearing, hearing shall be had and on the basis

of such hearing the Building Standards Commission shall determine whether or not such building or structure is a dangerous building, then, in that event, the Building Standards Commission shall issue such orders as shall appear reasonably necessary to prevent the said building from being a hazard to life or property and to eliminate the said building or structure's dangerous qualities. 4. The owner of any

dangerous building, or his authorized representative, may appeal from the decision of the Building Standards Commission by giving notice thereof within ten days from the date of said hearing and file with the city secretary a fee of \$10. Such appeal shall be to the City Council, and upon the perfection of appeal. the City Council shall set a date for hearing before it and such appeal shall be by trial de novo.

5. Pending appeal, such orders of the Building Standards Commission shall require a vacation of the alleged dangerous building, shall remain in effect, but all other orders of the Commission shall be suspended in their operation.

SECTION VI. The following standards may be followed in substance by the Building Standards Commission in ordering repair, vacation or demolition

A. If the dangerous building can be reasonably repaired so that it will no longer be in a condition that is in violation of the terms of this ordinance, it shall be ordered repaired.

is in such condition as to publication of this ordinance make it dangerous to the health, morals, safety or general welfare of its occupants or of the public, it shall be ordered to be vacated.

C. In any case where the dangerous building is 50 percent damaged or decayed, it shall be demolished, and in all cases where a building cannot be repaired so that its existence will no longer be in violation of this ordinance, it shall be demolished.

SECTION VII. Neither the city of Hamlin nor any authorized agent acting under the terms of this ordinance shall be liable or have any liability by reasons of orders issued or work done in compliance of this ordinance

SECTION VIII. It shall be the duty of the City Attorney of the city of Hamlin to enforce the orders of the Building Standards Commission or the City Council. upon appeal, by filing in the appropriate court of this state, when so authorized by the City Council.

SECTION IX. Any person who shall be ordered by the Building Standards Commission to repair or demolish a dangerous building shall commence such work within 30 days from the date such order becomes final, and all such work shall be completed in 6 months of said date. SECTION X. If the Building

Standards Commission has ordered that the dangerous building be demolished, and the owner or his authorized agent or representative willfully refuses or fails to commence the demolition of said building within the time provided by this ordinance

for such purpose, the city may cause such demolition to be done at the expense of the city on account of the owners, and case the expense thereof to be assessed on the real estate, or lot or lots upon which such offense is incurred. On filing with the County Clerk of Jones County

the city health officer of the city of Hamlin of such expenses, the city of Hamlin will have a privileged lien thereon, second only to tax liens and liens for street improvements to secure the expenditures so made and 10 percent interest on the amount from the date of such payment. For any such expenditures, and interest, as aforesaid, suit may be instituted and foreclosure had in the name of the city; and the statement so made, as

PUBLIC HEARING NOTICE

PPF Feeders, P. O. Box

309, Hamlin, Texas 79520, has applied to the Texas Water Quality Board for an amendment to its existing Permit No. 10405 pertaining to a variable amount of rainfall runoff water containing wastes from the cattle and swine feedlot (4,200 Cattle - 750 Swine) which is located immediately north of State Highway 92, four (4) miles east of Hamlin, Jones County, Texas. The rainfall runoff water containing wastes will be retained and utilized for irrigation. There will be no discharge to the surface waters of the State. A public hearing on this application will be held in the Council Chamber, City Hall, 555 Walnut, Abilene, Texas at 1:00 p.m. on July 9, 1975, to receive evidence on the conditions, if any, under which the amended permit may be issued, and to determine whether State Certification in accordance with Section 401 of the Federal Water Pollution Control Act Amendments of 1972 may be issued. Preliminary information available to the staff of the Texas Water Quality Board indicates that a waste discharge conforming to the

Sen. Farabee Completes Session With Impressive Record of Bills

Wichita Falls attorney and businessman Ray Farabee may have been a freshman legislator without precious experience when he began duties in the 64thLegislature as a State Senator in Austin last January.

He arrived at his home in Wichita Falls late last Wednesday, admittedly tired, but firmly ensconced as a veteran with some solid accomplishments behind him in the just-concluded session.

"I didn't go to Austin with a suitcase of bills. But certain matters came up which I thought were important," Sen. Farabee said in Wichita Falls last Wednesday afternoon.

His record may have been one of the most impressive of the session, either for freshmen or more experienced laislators.

He authored a total of 20 bills which were enacted into law, co-authored some additional measures and sponsored in the Senate other House measures.

Sixteen of the 20 bills he authored were approved as Senate Bills. Four were filed as duplicate bills in both the Senate and House, and he carried them through the Senate as House bills after their passage in the House.

One of his bills, Senate Bill 635, received statewide attention, and another received favorable comment in the national press.

malpractice bill which set a \$500,000 limit on individual malpractice awards, was supported by the governor and made a part of his

emergency program. It passed the Senate, but was defeated in the House by two votes, a discouraging but not hopleless rebuff. Farabee says nobody gave it a chance of passage initially, and he now feels it can likely be passed at a future session.

"I feel that generally it is an improvement and is needed. I recommend that they (his constituents) seriously consider voting for each of the articles."

He said the school finance bill will create some stress on the small school districts, adding, "That's why I voted against it. I think it will create some additional taxation on agricultural land."

harmless but pesky critters. On a camping trip your backyard is as big as all outdoors. Have respect for it, watch the trails ahead for loose rocks and for that snake that shouldn't be there, but often is. Be wary around small stock ponds because of the silent cottonmouth moccasin waiting for a meal. He may strike in self defense.

A good skin cleanser and a sunburn lotion or spray will make life easier. And remember to tell the family that Texas has no poisonous lizards of any type, but scorpions and spiders are ever present, requiring a trip to the doctor if a bite occurs.

The outdoors isn't dangerous. It's fun. But treat it with respect, and beware of any wild animal that seems to have lost fear of man. A fox or skunk that wanders toward you instead of running from you is a rabies suspect. Be careful.

And above all, don't forget those spare parts for the outboard motor and such things as fan belts for the car. They can get you out of a wilderness area. If there is some doubt about regulations of state laws, state parks, national parks, call your local game warden first.

Cancer Society Warns That It Does Not Endorse Products

American Cancer Society officials announced today that it in no way endorses any commercial product. The Chairman of the Board of the Texas Division of the ACS, Stanley Cole, said, "We want to make it clear that this applies to any type of insurance, especially cancer insurance."

Cole, a San Antonio insurance executive, said the Society feels the statement is necessary because an increasing number of insurance companies have been using ACS statistics in sales promotion literature. 'The American Cancer Society has never authorized the use of its statistics or any educational film or printed literature for any com-

mercial purpose," he said. "There have been some reports," Cole stated. "of American Cancer Society educational films being used by agents in direct sales promotions. This is an absolutely unauthorized activity and we are asking people to report this sort of activity to the State Board of Insurance and the American Cancer Society if it continues.

"While the American Cancer Society assembles and publishes many statistics regarding cancer incidence.'

Cole said, "it should be pointed out that it is possible to save one in two cancer patients if people would do for themselves what they can, using available knowledge regarding early diagnosis and known effective treat-

Graduation is over at public schools and colleges all around the area and as usual good advice was handed out at commencement and baccalaureate services.

But of all the speeches, of all the things written to the graduates of 1975, we liked what Tom Anderson, who writes for American Way Features, had to say best of

His advice goes equally to all of us as well as to graduates. He wrote:

"If you asked most people what they most wanted out of life, they would doubtless answer: "happiness." What is

Happiness is not what you have in your pocket but what you have in your heart Money won't buy happiness. And in spite of what the wags say, it won't buy a more endurable brand of misery. Those who chase happiness rarely catch up to it. Multimillionaire Jay Gould said before he died: "I suppose I am the most miserable man on earth." Happiness lies not in pleasure. Lord Byron, after a life of pleasure, moaned: "the worm, the canker and grief are mine alone." Power won't produce happiness. Alexander the Great conquered the known world and then wept and said: "There are no more worlds to conquer." Happiness lies not in believing 'God is dead.' Voltaire believed that, and wrote: "I wish I had never been born."

Happiness is being born again. Happiness is in Christ. He said: "Your heart shall rejoice, and your joy no man taketh from you." As Proverbs 16:20 teaches:

"Whoso trusteth in the Lord, happy is he." Happiness is being a sovereign individual. Learn to sing solo. Anybody can sing when

everybody is singing. The great and good things of history were performed by individuals, not the mass. Happiness is inequality.

You're unhappy because you have physical defects, you're not smart, don't express yourself well? Beethoven was deaf. Edison was a poor student. Churchill

There are few born geniuses. Genius is composed mainly of sweat, determination and courage. If you want success, do sweat

"Be sure you're right, then go ahead; be sure you're wrong before you quit." Don't brood over failures; if you must cry over spilt milk, condense it. And don't blame your "bad luck." Luck is a circumstance as rare as an honest politician. Your "luck" is what you make it. Those who complain about the way the ball bounces are invariably the ones who fumbled it.

Happiness is security - and the only real security you'll ever have will come from inside you. You are not the same as the others. You are different. Different from any person alive, or who ever lived, or who ever will live. You are you. The only you. What are you going to do about you? That is up to you. Happiness is a round peg in a

PAPER NEEDED ...

... for Day Care Center Pledge

The Hamlin Board of Community Development is in desperate need of more paper for their year-round paper drive. The revenue from the waste paper is used to fulfill a pledge of \$1,000 a year to the Day Care Center.

In the past yearly income from the paper drive has been from \$1500 to \$2,000 and

was used also to sponsor the summer recreation program for the youth. There will not be a recreation program for the youth this year, according to Mrs. L. C. Bonds, BCD secretary-manager.

In making the pledge of \$1,000 to the Day Care Center, only the plus income of the paper drive was set aside. The BCD is not using any

money from the regular budget for this purpose.

Mrs. Bonds said the \$1,000 is imperative to the operation of the Center. Only \$400 has been received from the waste paper this year.

The waste paper may be deposited in the trailer parked in the wire enclosed area on the lot on Southeast Ave. A between Southeast Third and Fourth Streets.

Those unable to take the paper to the designated spot may call Mrs. Bonds at the BCD office, 576-3501, for arrangements to be made for

Volunteers who would like to assist in the pick-up are asked to call Mrs. Bonds.

Most of Area's Bumper Wheat Crop Is Harvested

Between 80 and 90 percent of the area's bumper wheat crop was harvested last week but it may be a week to 10 days before the balance of the crop can be cut, according to a spokesman at Moore

A shortage of combines is expected to delay the final stages of the harvest as most of the transient harvest crews have already pulled out of the

The biggest day of the area harvest set a new record for Moore Elevator as 141,000 bushels were unloaded at the elevator last Tuesday, June 3. This exceeded the previous high set the day before when 119,000 bushels were har-

A total of 880,000 bushels of wheat had been unloaded at the local elevator up to Monday morning of this week. The bulk of this was harvested in seven days with the harvest moving into full swing here Sunday, June 1. Because of the high humidity and threatening rain, only a small amount was harvested here Sunday and the same conditions slowed the harvest again Monday.

With some area elevators running as much as a two hour delay in unloading, the local elevator reported that 10 minutes was the longest wait for any of the 400 trucks that were unloaded during the record breaking day last Tuesday. The 141,000 bushels unloaded during that day was equivalent to 84 railroad cars

The wheat was bringing \$2.80 a bushel here Monday, down from the \$2.95 that the wheat was bringing at the start of the harvest.

Yields are reported to be

running between 20 and 22 bushels per acre. Most of the area wheat suffered from the late freeze, hail and rain with some estimates putting the loss as much as 10 bushels per acre over the area.

Even with the loss in the yield, the increase in acreage is making this year's crop a bumper one with the local elevator looking for a million bushels before the harvest is completed.

BCD to Launch Drive For Members During June

The Hamlin Board of Community Development will hold a drive for new members during the month of June, according to Mrs. Robert Fowler, chairman of the membership committee.

Dues to the BCD are \$12.00 annually for individuals and \$60 annually for businesses. The dues may be paid monthly, quarterly or an-

In the letter to be mailed to prospective members, the

committee points out that the BCD needs your help. "Our community is not large enough to enjoy the luxury of a small handful of 'civic leaders.' We all must be a civic leader and through our joint effort we will make a better life for ourselves and a better future for our children." Mrs. Fowler points out

The committee uses the letter to cite a number of projects that the BCD has

given birm to, including the newly formed Industrial Foundation, the Child Day Care Center and a number of projects sponsored by the Retail Trade Committee of Mrs. Fowler points out in

the letter that, "The Hamlin Board of Community Development is dedicated to improving every aspect of our city, from business and industry to social activities." Anyone interested in more

38 Girls Take Part In Day Camp Here

Hamlin Girl Scouts day camp was held June 3-6 at the Girl Club Hut with 38 girls registered. The girls were assigned to one of four troops.

Mmes. Carl Corlee and Ronnie Lincoln were leaders for the third grade girls and Mmes. Sam Mack Hodges, Ralph Ferguson, Corky Bond and Joe Cowan lead the second grade girls. Junior troop leaders were Mmes. Dwain Wall and Dan Schutte, fourth grade girls, and Mmes. Roy Tom Watts, Ken Prewit and J. W. Turner, older girls' leaders.

All girls participated each day in the flag ceremony. Mrs. Curtis Payne donated a new flag pole for the hut.

RAINFALL

The three-day total rainfall recorded in Hamlin was .25, according to Bill Rountree. official weather observer. Recorded Sunday was .16;

Monday, .01 and Tuesday, .08.

Each girl learned the flag ceremony, the correct way of handling a pocket knife and hatchet and how to make a campfire. Each troop had their own campfire and cooked their meals two days. Friday night was family night and the girls cooked cakes in cardboard boxes and 'Darn Goods'' for their families, presented entertainment and displayed crafts made at camp.

Mmes. Thomas Welch and Don J. Allen were in charge of the crafts. They made name tags from wood. weaved belts from drinking straws and yarn, made "Ojos De Dios," knot tying, leaf painting and string painting. The junior troop made headbands, tom-toms and totem poles.

All fourth grade girls earned the Rambler patch and Day Camp patch. The two brownie troops earned the Day Camp patch, which is the only patch they can earn until they become junior Scouts. The older junior troop earned the Day Camp patch. Indian Lore, Rambler. Housekeeping and others.

Friday was "splash day" and after the flag raising ceremony, the troops and their leaders went to the park for a day of swimming and a pienie lunch.

Mrs. Curtis Payne was camp director, Mrs. Thomas Welch, assistant director. Mrs. Johnny Waldrop, business manager, Mrs. Herbert Johnson and Mrs. Ralph Ferguson, nurses.

The leaders extend their appreciation for all who donated material for the camp.

FIFTY YEARS AGO (June 12, 1925)

There will be a call meeting of Hamlin Chapter No. 460 Order of the Eastern Star. Friday evening, June 12, starting promptly at 4:00 p.m. to meet the Assistant District Deputy Grand Matron of Childress. All members are urgently requested to be present and visitors cordially invited.

The Katy safe at the station was looted Wednesday night. It is said that about \$35 or \$40 and some papers were taken. The safe was opened with charge of dynamite, about 2:00 a.m. Thursday morning. Several heard the report, but thought nothing much about it. It is thought that a Ford car with vacuum tread tires was the means of transportation.

This week Hamlin people will notice that the local ice company is putting out some of the prettiest ice that has ever been made here. This is because the Ice Company is using a better quality of water every day at a daily cost of twenty dollars in order that Hamlin people may have first class ice. No chemical treatment is made on the water now being used.

Emest Dowell who has been serving the local Western Union as clerk has been promoted to position of manager at Gorman. Dowell is a fine young man and while here made many friends. J. H. Reese of Cross Plains is to fill Dowell's place. In the meantime Truett May is substituting for the

Cotton farmers of the Hamlin region found added encouragement for this year's cotton crop prospects this week in an announcement from Washington that support prices would be boosted. The boost in cotton support prices was announced Wednesday by the Department of Agriculture to not less than 33.5 cents per pound. This compares with 32.9 cents last year.

continually complain that people don't understand them probably don't understand

Nobody can cheat you as badly as you cheat yourself. More important than your good qualities are the use you make of them. Happiness is service above self.

When a young minister asked his Bishop, 'What shall I preach about?,' the Bishop answered: "Preach about God and preach about 20 minutes.

Happiness is knowing how to spend your time. At your age it's hard for you to appreciate the tyranny of time - there's so little time for each of us. Seneca observed centuries ago: "We are always complaining that our days are few, and then acting as though there would be no end to them.

Jesus had only 33 years on earth. Nathan Hale had 22. Joan of Arc had only 19. It's not how much time you have; it's what you

Happiness is doing nothing you have to hide. Happiness is a clear conscience. Sin is not old-fashioned; sin is real.

What is morality? It's what the Bible says it is. Not what some leftwing, overeducated professor or a "modernist" preacher may

A nice girl is still one who whispers sweet nothing-doings into her date's ear. Don't ever let anybody sell you the lie that chastity is out of date. Your children will want their mother to be as pure as you want your mother to be. Happiness is having a future,

All that is legal or "acceptable" is not moral. Only the moral deserve to be free. Freedom and morality are indivisible.

Happiness is knowing. Education is not merely school. Your education is the continuous development of mind, heart and character

Character is like an iceberg; the part which counts for most is below the surface. When you cash in your chips for this life, the only thing of any value which you can take with you is your character. Character is a victory, not a gift. Character knows no race. creed, color or circumstance. If you lack it, it's nobody's fault but your own. Happiness is character

Happiness is freedom. What is freedom? It is freedom to choose. It is the right of every person to own and control his own property, his own mind, and his own labor as long as he is not infringing on the same rights of others.

There is only one great giver and that is God, not government. Governments don't give freedom; they take freedom. People have to wrest freedom from governments. Then after the people secure freedom, they have to work constantly to keep it. You can't have freedom and security. Happiness lies not in the state but in the state of mind.

Government can give you nothing which it does not first take from somebody else. If you want your government to be your servant instead of your master, you must understand it, participate in it, distrust it and control it. The bigger it is the littler you are.

Happiness is being self-sufficient. Throughout our lives one of our greatest needs is to feel wanted and appreciated. No less pitiful than an unwanted child are the unwanted old people relegated to rest homes where they get everything their hearts desire except the one thing they most want: love. Love is the greatest thing there is. Love, honor and obey your God and your parents. "For God so loved the world, that he gave His only Begotten Son, that whosoever believeth in Him should not perish, but have everlasting life."

Happiness is love.

Dear editor:

A week or so ago in this space I was joking about New York City, how it had so much brains and talent and yet couldn't pay its bills and was facing bankruptcy if Washington didn't lend it a billion dollars immediately.

Washington declined, and I have now decided this is no laughing matter.

For example, what if New York does go under, the banks foreclose, and everybody has to move out, like the people of that Cambodian city I can't pronounce, Pnom Penh? (On the other hand, how many Cambodians can pronounce Philadelphia or Schenec-

New rates for long distance calls within Texas.

With Discount Periods and a new One-Minute Rate, you may be able to save money.

Rates for Long Distance calls within Texas have just changed.

For you - the telephone customer - it means most rates are going up.

But you may be surprised to learn that rate inges won t necessarily bring higher telephone bills. Because with our new discount for dialing

your own calls, you can better control your Long Distance costs. In some cases, you may be able to save

money on your Long Distance bill by taking advantage of these rates. For example, there's a new one-minute

rate on all calls that you dial yourself - without the operator's help.

Under the old rate, the initial rate period was for three minutes. Now on One-Plus dialed calls the initial rate period is one minute.

That means you can save by reducing the length of your call.

DANGEROUS BUILDINGS ORDINANCE

CITY OF HAMLIN An ordinance defining dangerous buildings within the terms of this ordinance. establishing a Building Standards Commission. providing for the condemnation of dangerous buildings or structures, and providing for the evaluation, repair, and-or demolition of dangerous buildings; providing for the assessment of costs of abatement; providing for the fixing of a lien for the costs of abatement; containing a savings clause; providing for the method of publication of this ordinance; and providing a penalty.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF HAMLIN. TEXAS: SECTION I. All buildings or structures which have any or all of the following defects shall be deemed dangerous buildings:

A. Any building, shed, fence or other man-made structure which is dangerous to the public health because of its condition, and which may cause or add in the spread of disease, or injury to the health of the occupants of it or neighboring structures.

B. Any building, shed, fence or other man-made structure which because of faulty construction, age, lack of proper repair, or any other cause, is especially liable to fire and constitutes or creates a fire hazard.

C. Any building, shed, fence, or other man-made for all ages, refrigerator and injury or damage by

collasping or by a collapse or fall of any part of such structure.

D. Any building, shed fence or other man-made structure, which because of its condition or because of lack of doors or windows is available to and frequented by malefactors or disorderly persons who are not lawful occupants of such structure. E. Any building, shed, or

other man-made structure so constructed or permitted to be so constructed as to constitute a menance to health or safety including all conditions conductive to the harboring of rats or mice or other disease carrying animals or insects reasonably calculated to spread disease, and including such conditions hazardous to E. Any building, shed, or

other man-made structure so constructed or permitted to be so constructed as to constitute a menance to health or safety including all conditions conductive to the harboring of rats or mice or other disease carrying animals or insects reasonably calculated to spread disease, and including such conditions hazardous to safety as inadequate bracing FOR SALE—Farm house to or use of deteriorated

Any building, shed or other man-made structure FOR SALE—14 \times 60 mobile—that has become deteriorated through natural causes or by damage through exposure to the elements, especially wind, hail, or rain, or damage through fire, to the extent that the roof, windows and doors, or portions of the house, building, or structure which protect from the weather, will no longer reasonably protect from the

SECTION II. All dangerous buildings within the terms of this ordinance which shall constitute a menance to the health, morals, safety, or general welfare of its occupants or of the public are declared to be public nuisances and shall be ordered to be vacated, repaired or demolished as herein provided.

SECTION III. It shall be city; and it shall be unlawful for the owner, occupant or person in custody of any dangerous building to permit the same to remain in a dangerous condition, or to occupy such building or permit it to be occupied while it is or remains in

dangerous condition SECTION IV. There is hereby created a Building Standards Commission to be composed of three members. each of whom shall be a resident of the city of Hamlin. They shall hold office for a period of two years, or until their successors are appointed. As near as practical, they should be qualified in one or more of the fields of fire prevention, building construction, health and public safety. In addition to said three members, the fire marshal, building inspector. and health officer of the city of Hamlin shall be ex officio non-voting members of said Building Standards Commission. Any city employee the said respective department or division of the city, who shall be designated by the city's secretary, shall be authorized to act as substitute for the respective superior of their respective department or division as ex officio member of said commission. It shall be the duty of the ex officio members of such commission to inspect all buildings or structures reported to be or believed to be dangerous and to present a report of such inspection to the Building Standards Commission, which commission shall

Sen. Farabee Completes Session With Impressive Record of Bills

businessman Ray Farabee may have been a freshman legislator without precious experience when he began duties in the 64thLegislature as a State Senator in Austin last January

He arrived at his home in Wichita Falls late last Wednesday, admittedly tired. but firmly ensconced as a veteran with some solid accomplishments behind him in the just-concluded session.

"I didn't go to Austin with a suitcase of bills. But certain matters came up which I thought were important," Sen. Farabee said in Wichita Falls last Wednesday afternoon.

His record may have been one of the most impressive of the session, either for freshmen or more experienced legislators.

He authored a total of 20 bills which were enacted into law, co-authored some additional measures and sponsored in the Senate other House measures.

Sixteen of the 20 bills he authored were approved as Senate Bills. Four were filed as duplicate bills in both the Senate and House, and he carried them through the Senate as House bills after their passage in the House.

One of his bills, Senate Bill 635, received statewide attention, and another received favorable comment in the national press.

Wichita Falls attorney and malpractice bill which set a \$500,000 limit on individual malpractice awards, was supported by the governor and made a part of his

emergency program. It passed the Senate, but was defeated in the House by two votes, a discouraging but not hopleless rebuff. Farabee says nobody gave it a chance of passage initially, and he now feels it can likely be passed at a future session.

Farabee authored a bill making it a criminal penalty for parents to sell babies, a national problem, and this measure got national at-
